

SLIDES AND LADDERS

MULTIPLYING BY 0

Instructions: Roll the dice. Whoever has the highest number starts. Roll, move and solve the problem. If you land on a ladder move up. If you land on a slide, move down. Whoever reaches finish first wins.

The board features several slides and ladders:

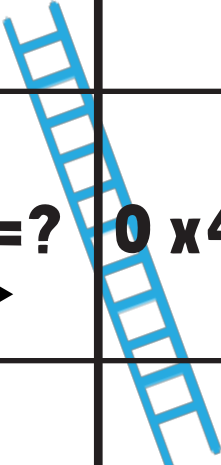

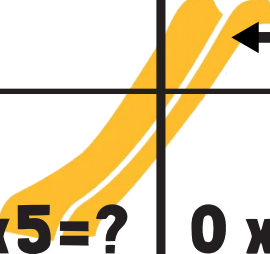

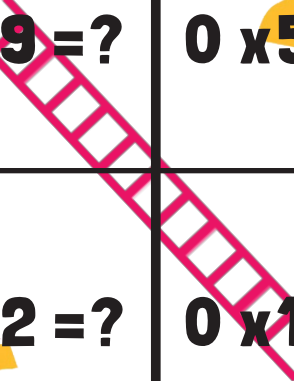

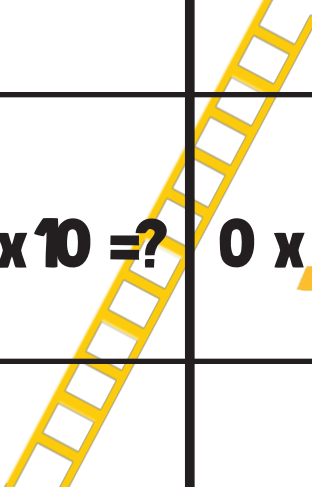

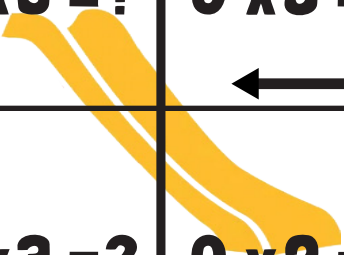

- Blue Ladder:** Connects the bottom-right cell of the second row to the top-left cell of the first row.
- Pink Ladder:** Connects the bottom-right cell of the third row to the top-left cell of the second row.
- Yellow Ladder:** Connects the bottom-right cell of the fourth row to the top-left cell of the third row.
- Yellow Slides:**
 - Slide 1: Connects the top-right cell of the first row to the bottom-left cell of the second row.
 - Slide 2: Connects the top-right cell of the second row to the bottom-left cell of the third row.
 - Slide 3: Connects the top-right cell of the third row to the bottom-left cell of the fourth row.
 - Slide 4: Connects the top-right cell of the fourth row to the bottom-left cell of the fifth row.

Arrows indicate movement directions: up, down, left, and right.
